

Declaration of compliance with the Code of Conduct

at the Catholic Student Community of Karlsruhe

The Catholic Student Community of Karlsruhe (KHG) is part of the Roman Catholic Parish of St Stephen, Karlsruhe (Catholic Church of Karlsruhe). All employees and volunteers are bound by the Code of Conduct set out in the Protection Policy. The Protection Policy promotes a culture of respect for boundaries and is intended to help break down the barriers of abuse of power and shame.

Within the KHG, in addition to the full-time and volunteer leaders, all members undertake to adhere to the Code of Conduct. We aim to live by the rules set out in both the general and specific sections in our interactions with one another.

I, _____, have received the Code of Conduct and have carefully taken note of the rules of conduct set out therein.

I hereby declare my willingness to comply with the general and specific sections of the Code of Conduct, as well as with the KHG's specific provisions, insofar as they apply to me in my interactions within the KHG. I have also taken note of the provisions governing conduct that apply solely to the relationship between those in care and those in positions of responsibility, and I am aware of how those in positions of responsibility should behave towards me and my fellow members.

In the Code of Conduct, we confirm our knowledge of reporting procedures and guidelines for action. The reporting procedures are designed to provide points of contact to which I can turn as an affected person or as a helper. This applies in particular to suspected cases and incidents of sexualised violence.

The guidelines show how I, as a helper, can respond and how voluntary and full-time staff should behave. These materials are displayed at the KHG building and are also available on its website. In the event of an incident, the protection and well-being of those affected are the top priority.

I confirm that I have taken note of the reporting procedures and guidelines. In the event of an incident, I know where to find the relevant contacts or whom I can confide in.
